DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11 & 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Gelbard et al. (US Patent No. 4,497,183). Gelbard discloses a refrigerator apparatus (10) with a storage compartment (12) and comprising: a condensate drain pan (32), a condensate tube (28), a heat exchanger device (24) in fluid communication with the said pan, an evaporator (13) and a compressor (18) having a high and low pressure side.

Allowable Subject Matter

Claims 13-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
